

PROBLEM SET # 8

Each individual student will prepare and upload the submission before 11.59 PM of the deadline day in virtual classroom (Moodle). If you have doubts then you can meet Ms Aleesha Mariya (intercom 261) for clarifications. There should be around 8-9 submissions. Delay would mean non-submission and hence deduction of marks.

Please note that all your submissions will be Microsoft Excel files and the filenames would be YourRollNumber_YourSubmissionNumber.doc. For example, Roll Number # is PGP/23/010 then the first submission would be 010_1.xlsx; and similarly Roll Number # is FPM/13/09/M then the ninth submission would be 09M_9.xlsx.

As your 8th submission, I expect you to submit the following: Refer to Chapter 13 (pages 422/444-431/443) of the Prescribed Book and submit based on your roll numbers using below table by 08-09-2019.

Some Questions:

1. When should I cite a source in the text of the submission?

If it is not your original idea/analysis or if you didn't discover the information yourself, cite it.

2. I have helped others do the submissions? And, I'm getting the lowest marks in the class?

Typically, you may not have submitted the way it was expected by the evaluator. For example, you solved the problem correctly but you did not explain it properly.
