

XLRI Jamshedpur PGCHRM 2013
Course: Financial Management → Take Home Assignment

You are to make only one submission working on all the topic(s) as given in next page regarding your company using the latest two completed financial years (typically they will be the financial years ending on 31-March-2011 to 31-March-2012). The submission could range between 7 to 28 pages. **The first page of your submission will contain on top your roll no, your company and the title of the topic. Aspects such as your name, my name, acknowledgements should be avoided.**

The key to your assignment marks are – (a) what you compute and write¹, and (b) how well you support your argument(s). For example, if you were working on the sub-topic ‘Financial Statement Analysis (FSA)’, then firstly you will have to compute the financial ratios for the last 2-3 years. Then write relevant interpretations regarding the changes that have taken place in the company’s financial ratios/figures (by preferably comparing it with its competitors).

The various websites provided at the end of the course outline (see page 3 in course outline) will be the best source for getting the abridged figures of balance sheet, profit & loss account and share price movements of your company. A company’s own website is also immensely useful. The prescribed textbook provided to you (along with www.kakani.net website) would be a good place to look for past sample assignments. You can make use of multiple sources in the Internet. Use any information you have access to...just be sure to cite your sources. Remember – Plagiarism is enough grounds for failing.

Important Deadlines and Procedures:

The assignment deadline is 09-04-2013, Time 4.30 PM. No submissions will be accepted after the deadline neither any excuses would be accepted. The submission procedure is simply send your assignment by email to Ms. Tooshima Sarkar (email id: tooshima@xlri.ac.in) and/or to Mr. Alok Mahto (email id: alok@xlri.ac.in). **Delay in receipt of the assignment will lead to an incomplete grade being awarded to the candidate. The total assignment marks will be limited to 35.**

¹ Even if you take a single line from some newspaper (or website or book) – you need to provide its reference as an endnote (in case of website, complete link address).

No	Topics to be covered in your assignment	Any Reference
1	Introduction to Financial Statements	This will be based on the first two days discussions of our course (alternatively, look at the relevant pdf handouts and excel sheets). For example, tabulate your company's financial statements (in the discussed format) and discuss the interlinkages between various the financial statements (as done with reference to Colgate Palmolive India Illustration). If you find anything interesting or puzzling – just document the same i.e., state it. Using your own language (rather than copy-pasting will immensely help). Page 51 of RWJK 8e may also help
2	Introduction to Corporate Finance	Should be related to Day 3 lectures. Provide (a) one page write-up of the company; (b) Present its significant non-financial performance indicators; and (c) identify three good peers/ comparisons to your firm. Add your comments/ observations in the end. Page 23 of RWJK 8e may also help
3	Financial Statement Analysis and Long-term Planning	Should be related to Day 4 lectures Page 99 of RWJK 8e may also help
4	How to Value Bonds and Stocks	Should be related to Day 5 lectures Page 191 of RWJK 8e may also help
5	Making Capital Investment Decisions	Should be related to Day 5 lectures Page 273 of RWJK 8e may also help

A few more will be added – as our sessions go on ...

Basis of Allocation of Companies:

I have picked up a list of popular domestic companies given by CMIE (part of BSE 500). Few smaller players were included to bring in some variety.

Some Questions:

1. Is there an incentive if the assignment submission is larger?

No. Length does not equal completeness. As a general rule, including information, analysis and/or discussion that is correct but which doesn't help the reader understand the topic will hurt your grade.

2. When should I cite a source in the text of the paper?

If it is not your original idea/analysis or if you didn't discover the information yourself, cite it.

3. Does this assignment need a basic background of accounting?

No, it does not. It just needs your time and efforts to understand the industry and company you have been allotted.
