11.	Overall rating for the course	57	27	6	2	0	0	5.51	5.52	1.88

**What topic do you like to get added or deleted to this course ?**

make it a 40 session course .. FM was too short a course .. a lot needs to be covered in leasing, F&O, MACR etc .. in fact a great course immense learnign value and we would prefer much more interaction with this faculty  
Group project could be deleted. The individual projects taught me a lot. On the other hand, the group project turns out to be a one-man effort.  
This course can have less no of topics and we can deals with things in more depth  
Nothing in fact the course is designed in an excellent way.  
Should have more topics / inputs on International issues on finance related events.  
Lesser number of topics be covered but they should be covered in sufficient detail to facilitate development of sound fundamentals.  
More emphasis on Corporate Governance and control.  
1 or 2 lectures on scams,failed organisations and issues in the working of non profit organisations,NGOs and rural industries.  
Swaps and currency instruments.  
International Financial practices should also be introduced.

**What specific suggestion would you like to give to the course instructor ?**

Strengths of Instructor: Capital Budgeting, Financial Statement Analysis  
Development needs: Securitisation, risk management, derivatives  
Other strengths: Good discipline enforcement and concept of individual assignment  
Brilliant course. It had immense practical value. However, the amount of quantitative aspects covered were less. Overall extremely satisfying. I hope that you would float some electives for u
